

YOUR PATH TO SUCCESS

Introducing First Time Ever in India

Track & Trace with END TO END AUTOMATION for Secondary Packaging Line

An Ultimate One in All Solution For Carton Line

Smart, Accurate and Secure Track & Trace Solution

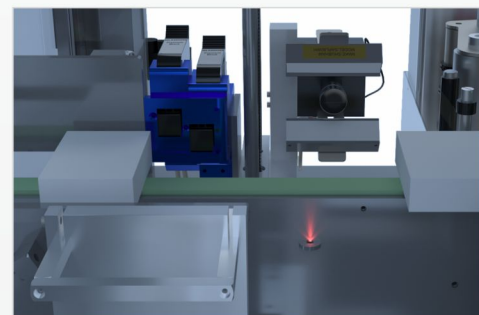

Our turnkey serialization solution with a smart Track & Trace technology confirms the products across the supply chain. Here's the one of its kind packaging solution with zero human intervention process.

The latest End-of-line automation (EOLA) provides all in one solution. It comprises Case Packer and Erector, Case Sealer, Online Weighing, Track & Trace along with Print & Apply that will expedite and streamline your entire packaging process.

Our pro machine has an inbuilt high speed and high resolution camera with specially designed illumination technology that reads and confirms the serialization codes. This data is then captured and sent to the assigned server in order to verify the details.

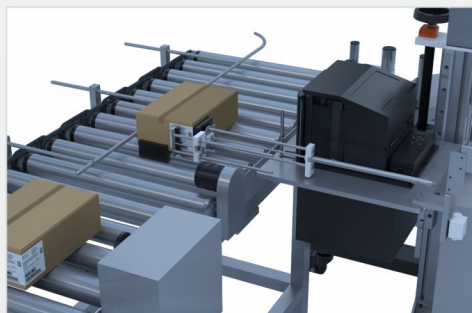

15" colour touch screen Operator Console

High speed Printer and Camera Inspection system

Single Shot Aggregation system

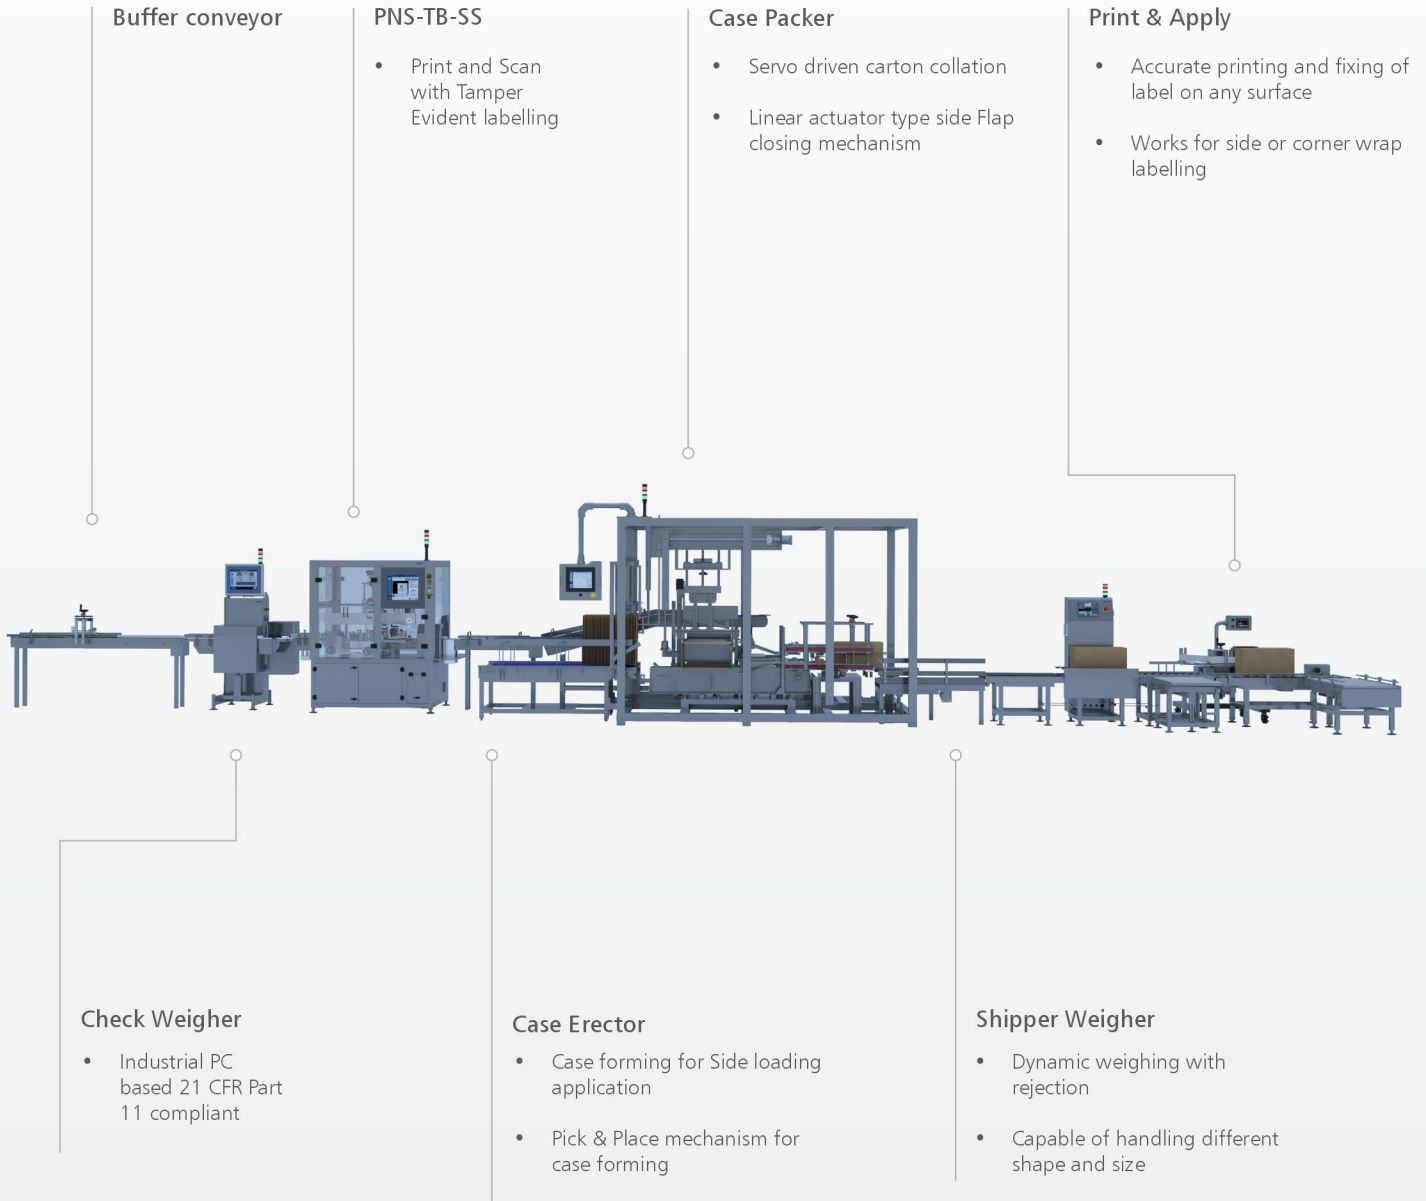

Online Print & Apply system

After the confirmation, Print & Apply mechanism prints a case label, and then the label is applied to the case. This aggregation creates a parent-child relationship to maintain a proper hierarchy of products for a secure supply chain through our Track & Trace system. At Shubham, we believe in offering solutions that adhere to 21CFR Part 11 compliance to ensure the best product packing process in the industry.

Our advanced end of packaging line solutions are crafted specially for prominent Pharma companies. We produce high-quality packaging automation solutions customized as per your requirement so you can be flexible, adaptable, consistent and as fast as you need to be.

End to End Carton line solution

Key Benefits

QUALITY CONTROL

All required government approved compliant measures are taken to ensure the quality is intact.

ONE STOP SOLUTION FOR TRACK & TRACE

From serialization to aggregation, this is the ultimate solution for your end of packing line.

EASE OF OPERATION

This all in one solution will surely make your life easier by smoothening the packing operations.

IMPROVED PRODUCTION SPEED

Automation accuracy and operations amplifies your production speed to the next level.

BETTER INFORMATION ACCESS

Get all the required packing data organised under one platform.

REDUCED LABOR INJURIES

With zero manual intervention, there's hardly a chance of labor injury.

REDUCED STAFF HOURS

Our solutions are versatile as it provides fully automatic with cutting-edge technology and innovative products.

Industry Pains due to Human Intervention

Still depend on **manual inspection for quality assurance** at each packaging stage?

Do you experience **slow operational speed** during the packing process?

Do you face **data integrity in your serialization** process?

Have you incurred a **huge loss due to product damage** or improper packing?

Faced frequent **workplace accidents** and labor risks?

We Are Trusted Worldwide

We offer world-class industrial automation solutions for more than two decades now. We are professionals who believe in delivering a customer centric approach.

20+ Years of Experience

2500+ Installations worldwide

30+ Automation Products

Clientele

and many more..
